Special Issue on "Lab-on-a-Chip" in BioChip Journal

Guest Editor: Je-Kyun Park, KAIST, Daejeon, Korea

Dear Contributor,

BioChip Journal (BioChip J) is a new international peer-reviewed journal, which publishes original research and reviews in all areas of biochip technology in the following disciplines, including protein chip, DNA chip, cell chip, lab-on-a-chip, bio-MEMS, biosensor, micro/nano mechanics, microfluidics, high-throughput screening technology, medical science, genomics, proteomics, bioinformatics, medical diagnostics, environmental monitoring and micro/nanotechnology.

The Korean BioChip Society published BioChip Journal four times a year. The journal is committed to rapid peer review to ensure the publication of highest quality original research and timely news and review articles. The journal is now undertaking a new publication plan by launching a special issue on "Lab-on-a-Chip," devoted to various disciplines in the fields of Lab-on-a-Chip technology, including biological sample pretreatment and detection, cell-based assays, microfluidics & nanofluidics, microfluidic devices, and micro total analysis systems (μ TAS).

The publication date of the Lab-on-a-Chip Issue will be March, 2008 (Vol. 2, No. 1). Additional information and Instructions for Authors for article submission at the following website: www.biochip.or.kr. The deadline for submission of the manuscripts is set for January 31, 2008.

I would like to invite you to submit research reviews, articles and communications to the special issue on "Lab-on-a-Chip" in BioChip Journal. If you are interested in submitting an article to this journal, please contact me by e-mail (jekyun@kaist.ac.kr or jekyun@kaist.edu) at your earliest convenience providing the tentative title of your contribution.

Je-Kyun Park
Special Issue on "Lab-on-a-Chip"
